The Trust has been supporting several schools in Mumbai and Maharashtra. Our major contribution in this field is to provide supplementary services to the education department of Municipal Corporation of Greater Mumbai (MCGM) and Mumbai.

## **Our Chairman's message**

We believe that as human beings we will not merely endure but will also prevail. Because we become immortal through our deeds and we alone possess the power of positive thinking, as within us we have a soul and a spirit capable of compassion and sacrifice.

Whether or not we have children by ourselves, we are parents to the next generation. If we can stop thinking of children as our own and think of them as an asset of the future generation, then we can realize we all have a role to play.

If we want our children to keep their feet on the ground, it is imperative that we nurture them through proper education, inculcate both a moral and social code of behaviour to help them live their lives with courage and to respect and revere other fellow human beings.

Irrespective of what socio-economic strata they come from, we believe it is our moral responsibility to go beyond our honourable intentions, dignity and self respect. It is not that they deserve it, but as parents and citizen of a democratic country, we owe it to them.
